

Dear valued customer,

05/10/2013

With regards to the Frank-Dodd Conflict Minerals Act Section 1502, the Tin utilized in the manufacturing process of Copper Based Alloy products by National Bronze Mfg. Co. does not originate from the Democratic Republic of Congo or from the "Conflict Zone Mines" countries listed on the "Conflict Minerals Map".

The Tin in the copper based alloys purchased by National Bronze Mfg. Co. is "DRC conflict free". National Bronze Mfg. Co. Copper alloy suppliers maintain a file with all Tin purchases which contain the Tin's country of origin.

National Bronze Mfg. Co. is fully compliant to the requirements of the Frank-Dodd Conflict Minerals Act Section 1502.

Regards,

WILLIAM AUSTETER
